

SEE JOURNAL OF PUBLIC HEALTH AND HEALTHCARE MANAGEMENT

Faculty of Public Health
Medical University – Sofia
Bulgaria

Mission

The “SEE Journal of Public Health and Healthcare Management” is intended to have national (in each of the SEE countries) as well as regional (in the whole region of SEE) recognition and impact.

General aim

To gather, evaluate, publish and distribute the PH scientific knowledge and contemporary news and events in the SEE region and in this way to serve as a tool for exchanging scientific experience and ideas and for raising the standards of research and quality of writing a scientific paper in the field of public health.

Objectives I

- ❑ To create a regional scientific journal, entirely dedicated to PH issues, and prepared, according to the international scientific standards.
- ❑ To open another possibility to publish a scientific paper in the field of PH in an international journal (kind of restricted till now).
- ❑ To motivate every PH professional in SEE, regardless of age and experience, to start and continue research (make an observation; conduct a study etc.) in the PH sphere and try to publish his work.

Objectives II

- ❑ To make possible the international recognition of articles, written in different languages.
- ❑ To inform all the PH professionals in the SEE region about important studies, findings, methods of research, innovations etc. in the sphere of PH in a certain country.
- ❑ To announce contemporary news and events and their outcomes.
- ❑ To bring forward interesting points for discussion on regional, European or international level.

Following its general aim and objectives, the “SEE Journal of Public Health and Healthcare Management” should be issues in the following manner (open for suggestions):

Contents sections

- ❑ Editorial
- ❑ Scientific part (strictly scientific approach)
- ❑ Abstracts' part – comprising important / all abstracts from the national editions!
- ❑ News and events

Periodicity, number of pages & language

- ❑ **2 (3) editions per year** (depending on the articles gathered) **in English for the whole SEE region!**
- ❑ **National sub-editions** (3 to 4 depending on the articles gathered) **in the language of the respective country, bearing the logo & (sub)title of the regional journal!** They may be already existing or made on purpose.
- ❑ **More than 60 (80 – 100) pages** (depending on the contents and number of articles and abstracts).

Editorial board

- ❑ A pyramid structure of **National editorial boards** for the national editions and one **International board** for the SEE Journal.
- ❑ The editor-in-chief (or a special representative) from each National board participates in the International board.
- ❑ The members of the International board should keep constant communication by e-mail and gather at least twice a year (most convenient during the joint meeting of the FORUM).

Number of copies per issue

- ❑ For the SEE Journal – at least 1000!
- ❑ Distribution among all SEE countries – sent by mail to schools and institutes of PH → local distribution among PH professionals.
- ❑ For the national sub-editions – a decision of the National board.

Price per copy/subscription

- ❑ Choosing the best offer!
- ❑ An example offer as attachment
(price is between 1.5 – 2.0 Euro per copy, depending on the № of pages and total print)

Financing and budget

- ❑ **The FPH** will be responsible for print financing until other opportunities for sponsorship occur
- ❑ The schools and institutes of PH from the SEE countries should pay for shipping costs of the received copies themselves.
- ❑ **Active fundraising!**
