• Public Health and Peace

Go to the people,  
Learn from them,  
Love them,  
Start with what they know,  
Build on what they have.

But of the best leaders,  
When their task is accomplished,  
Their work is done,  
The people will remark,  
“We have done it ourselves.”

(Lao Tse - via Berry Levy, IPPNW)

## Public health approach to work with authors:

“The community presents a natural work setting for a physician, not the laboratories or surgeries. The physician is a community worker and a teacher.”
